Management's Discussion & Analysis

Clarke Inc.

June 30, 2019 and 2018

MANAGEMENT'S DISCUSSION & ANALYSIS

Management's Discussion & Analysis ("MD&A") presents management's view of the financial position and performance of Clarke Inc. ("Clarke" or the "Company") for the three and six months ended June 30, 2019 compared with the three and six months ended June 30, 2018. The following disclosures and associated unaudited interim condensed consolidated financial statements are presented in accordance with IAS 34, *Interim Financial Reporting*. This interim MD&A should be read in conjunction with the information disclosed within the interim condensed consolidated financial statements and notes thereto for the three and six months ended June 30, 2019. This MD&A is prepared as at August 12, 2019 (unless otherwise stated). All dollar amounts are shown in millions of Canadian dollars unless otherwise indicated.

OVERVIEW & STRATEGY

Clarke is an investment company. Our objective is to maximize shareholder value. While not the perfect metric, we believe that Clarke's book value per share, together with the dividends paid to shareholders, is an appropriate measure of our success in maximizing shareholder value over time.

We attempt to maximize shareholder value by allocating capital to investments that we believe will generate high returns and reallocating capital over time as needed. In doing this, Clarke's goal is to identify investments that are either undervalued or are underperforming and may be in need of positive change. These investments may be companies, securities or other assets such as real estate, and they may be public entities or private entities. We do not believe in limiting ourselves to specific types of investments. From time to time, Clarke will invest passively in a security where it believes the security is undervalued and there is no need for change or where it believes the security is undervalued but that the management team in place at the underlying company is doing an appropriate job to reduce the undervaluation. More often, Clarke will seek active involvement in the governance and/or management of the company in which it invests. In these cases, Clarke will have acquired the security with a view of changes that could be made to improve the underlying company's performance and maximize the company's value. When Clarke believes that an investee company has implemented appropriate changes and/or the value of the investee company has reached or exceeded its intrinsic value, Clarke may sell its investment. Clarke generally invests in industries that have hard assets, including manufacturing, industrial, energy and real estate businesses.

SECOND QUARTER REVIEW AND OUTLOOK

In the second quarter of 2019, the Company's book value per share decreased by \$0.44 or 2.9%. The decrease can be ascribed to (i) negative \$0.27 per Clarke common share ("Common Share") resulting from a decrease in the value of our pension plan surplus due to a lower discount rate, and (ii) negative \$0.22 per Common Share as a result of consolidating Holloway Lodging Corp.'s ("Holloway") results into our own. These negative factors were offset slightly by investment income and cash flows from our ferry business. Our book value per Common Share at the end of the quarter was \$14.79 while our Common Share price was \$13.00.

As discussed in our first quarter MD&A, Clarke is required to consolidate Holloway's financial results into its own results. Consequently, our financial statements look far different than in recent years. Essentially, accounting standards require that we incorporate our 51% share of Holloway's financial results into our financial statements. This compares to past financial statements where we reflected on our balance sheet the value of the Holloway shares we owned and on our income statement the change in the value of our Holloway shares as well as dividends we received from Holloway. Notwithstanding the change in how we present our financial statements, we view our business the old way and manage it accordingly.

In an attempt to present our results as we look at them on a day-to-day basis and to enable our shareholders to compare our current results to our prior results, we have included at the end of this MD&A Clarke's statement of financial position on a non-consolidated basis, i.e. excluding the consolidation of Holloway.

Holloway Lodging Corp.

Holloway had a stable second quarter with same-hotel performance in line with the prior year. During the quarter, Holloway sold two hotels in Timmins, ON and acquired two vacant office buildings in Houston, TX. Holloway continues to repay debt and repurchase shares.

We continue to see lots of potential opportunities and value in Holloway's shares: additional hotel sales, rebranding and redevelopment opportunities, a growing third-party hotel management business and value-add opportunities in Texas. In that regard, on August 9, 2019, we announced that Clarke entered into an agreement to acquire all of the shares of Holloway that it does not already own. We discuss this further below.

Terravest Industries Inc.

Our view of Terravest remains the same as in recent periods. We believe Terravest can generate significant free cash flow and increase its EBITDA organically and through sensible acquisitions. We believe the company remains undervalued.

Trican Well Service Ltd.

Trican's shares fell during the second quarter. We believe this is due to complete, and understandable, apathy on the part of investors. Drilling activity in Western Canada is substantially below the prior two years and both the investment and energy communities are beginning to accept (or at least incorporate into share prices) the notion that this weak drilling environment could persist for several more years. In such an environment, oilfield services companies will not generate great results. Canadian oilfield service companies don't do themselves any favors by continuously pricing their services at unacceptable or even negative returns; this needs to change. Ultimately, Western Canada needs to realize higher commodity prices, and in due course thereafter higher drilling activity, for the shareholders of oilfield service companies to earn acceptable returns.

The future for Trican is not all bleak. First, Trican has among the best balance sheets of any oilfield services company in Canada. The company ended the second quarter in a net cash position (albeit due partially to a release of working capital during the quarter). This compares to most of Trican's competitors that have substantial debt burdens. Second, we believe Trican can and will further reduce its cost structure so that it can generate positive cash flow even if the current industry conditions persist. Third, the market for hydraulic fracturing services in Canada may be tighter than many investors perceive. Several companies operating in Canada have either sold or moved fracturing equipment out of Canada. If (or more optimistically when) the market for drilling and completions activity rebounds, Western Canada will likely have a deficit of fracturing equipment which should allow for higher prices and significant torque to Trican's financial results and share price. Even if the Canadian marketplace does not improve, all of Trican's equipment is on wheels and the company could put its equipment to work elsewhere in the world. There are certainly costs, risks and challenges to doing this, but it provides the company with optionality. Finally, and perhaps most importantly, we believe Trican's shares are so cheap at the current share price that a liquidation of the company would yield attractive returns. For instance, during the second quarter, Trican sold old fracturing equipment (some equipment was almost 20 years old) and realized gains on those sales. There is considerable asset value, including substantial working capital and owned real estate that buttresses the company's current valuation.

Our investment in Trican will require patience, effort and creative thinking, but we believe it will pay off handsomely for our shareholders.

Other

We currently own two energy investments other than Trican.

We repurchased 14,100 Common Shares or 0.1% of our Common Shares during the quarter at a cost of \$0.2 million. To date in 2019, we have returned a total of \$3.2 million to shareholders through Common Share repurchases.

Proposed Acquisition of Holloway and Future Business Strategy

On August 9, 2019, we announced an agreement to acquire the 49% of Holloway that we do not yet own. To do this, we plan to issue to Holloway shareholders approximately five million shares of our stock. We also plan to assume Holloway's \$50.9 million of convertible debentures, which offer flexible debt financing. We expect to complete this acquisition by the end of the third quarter.

This acquisition will provide Clarke with incremental sources of cash flow and help increase the scale and scope of our investment operations. We believe several of Holloway's hotel and office properties offer upside through upgrading, rebranding or conversion to other uses. We also believe there is considerable potential for growth in Holloway's third party hotel management business, which is still in its infancy.

Following the acquisition, we plan to focus on three investment areas, and organize ourselves accordingly: value-add real estate; engaged investments in public companies; and full or partial ownership of businesses.

Initially, our value-add real estate division will focus on Holloway’s three vacant Houston office buildings and the potential redevelopment of select Holloway hotels. Over time, this area of focus may expand to other types of real estate. Our public company investment segment will initially focus on our investments in Terravest and Trican. Our private businesses segment will initially consist of Clarke’s ferry operation, Holloway’s ownership and operation of hotels and Holloway’s third party hotel management business. Each of these businesses will act as standalone entities with their own management teams and be accountable to Clarke, as their sole shareholder. Clarke’s management and board will be responsible for allocating capital among the different businesses and investment opportunities.

Once we acquire Holloway, we will need to fully consolidate their results entirely into our own results (i.e. as we are doing now but without a 49% non-controlling interest, which will be removed following the acquisition). Notwithstanding this accounting presentation, we view our business as investing in businesses and other assets; Holloway is just one of these businesses. Therefore, we intend to provide alternative, simplified financial information to assist our shareholders in analyzing our business.

BOOK VALUE PER SHARE

The Company’s book value per share at June 30, 2019 was \$14.79, an increase of \$2.58 per Common Share since December 31, 2018. The following graph shows Clarke’s book value per share, share price and cumulative dividends paid since 2002 (the year the present Executive Chairman joined the Company).

* Information for the years ended 2002 and 2003 is as at March of the following year. In 2004 the Company’s year-end was changed to December. All other information is for the years ended December 31 and as at June 30, 2019.

The following graph compares the yearly change in the value of \$100 invested since 2002 (the year the present Executive Chairman joined the Company) in (i) the TSX Composite Total Return Index, (ii) the S&P 500 Total Return Index, (iii) the Company based on its total shareholder return, and (iv) the Company based on the change in book value per share (“BVPS”) and cumulative dividends paid.

Total shareholder return includes the reinvestment of dividends.

RESULTS OF OPERATIONS

Highlights of the interim condensed consolidated financial statements for the three and six months ended June 30, 2019 compared to the three and six months ended June 30, 2018 are as follows:

<i>(in millions, except per share amounts)</i>	Three months ended June 30, 2019	Three months ended June 30, 2018	Six months ended June 30, 2019	Six months ended June 30, 2018
	\$	\$	\$	\$
Hotel and management services	21.1	—	36.9	—
Provision of services	2.0	1.7	2.2	1.9
Bargain purchase	—	—	22.1	—
Investment and other income (loss)*	(2.6)	0.9	14.7	4.0
Net income (loss) attributable to equity holders of the Company	(1.6)	0.9	35.5	3.0
Comprehensive income (loss) attributable to equity holders of the Company	(5.0)	1.0	31.3	3.3
Basic earnings (loss) per share (“EPS”)	(0.13)	0.07	2.93	0.24
Diluted EPS	(0.13)	0.07	2.91	0.24
Total assets	433.8	164.1	433.8	164.1
Long-term financial liabilities	109.3	2.4	109.3	2.4
Book value per share	14.79	10.99	14.79	10.99

*Investment and other income (loss) include unrealized/realized gains/losses on investments, dividend and interest income, pension recovery/expense, and foreign exchange gains/losses.

Net income (loss) attributable to equity holders of the Company for the three and six months ended June 30, 2019 was (\$1.6) million and \$35.5 million, respectively, compared with 0.9 and \$3.0 million for the same periods in 2018. During the three and six months ended June 30, 2019, the Company had unrealized losses on its investments of \$3.3 million and unrealized gains of \$0.7 million, respectively, compared to losses of \$2.5 million and \$0.4 million for the same periods in 2018. The Company had realized gains on its investments of nil and \$12.5 million for the three and six months ended June 30, 2019 compared with \$2.2 million for the three and six month periods in 2018.

SEGMENT REPORTING

The table below shows a breakdown by segment of the Company's holdings as at June 30, 2019 based on total assets. The Other category is not a segment and is disclosed for reconciliation purposes. It consists of owned real estate, our treasury and executive functions, and the results of our pension plans. No comparative period information is disclosed because the Company only had one operating segment as at December 31, 2018.

Segment	June 30, 2019	
	\$	%
Investment	165.9	38.2
Hospitality	298.3	68.8
Other	28.0	6.5
Eliminations	(58.4)	(13.5)
Total	433.8	100.0

Investment segment

The Company owns securities and a ferry business. During the three and six months ended June 30, 2019, the Investment segment had unrealized losses of \$0.1 million and unrealized gains of \$22.9 million compared to unrealized losses of \$2.5 million and \$0.4 million for the same periods in 2018. The Investment segment had realized losses on its investments of nil and \$1.7 million for the three and six months ended June 30, 2019 compared with gains of \$2.3 million and \$2.3 million for the same periods in 2018. The Company's equity holdings generated dividends of \$0.8 million and \$1.7 million in the three and six months ended June 30, 2019 compared to \$1.0 million and \$1.9 million for the same periods in 2018.

The Company's securities portfolio consisted of the following investments:

	June 30, 2019				December 31, 2018			
	Shares	Market Price \$	Market value \$'000	%	Shares	Market Price \$	Market value \$'000	%
Energy Securities Portfolio	N/A	N/A	34,068	20.8	N/A	N/A	11,552	9.6
Holloway	7,952,715	7.35	58,452	35.7	7,952,715	6.30	50,102	41.7
Terravest	5,386,440	13.21	71,155	43.5	5,386,440	10.18	54,834	45.6
Keck Seng	—	—	—	—	4,292,000	0.86	3,686	3.1
Carrying value of securities			163,675	100.0			120,174	100.0

The breakdown of the change in the Company's securities portfolio is as follows:

	Six months ended June 30, 2019 \$
Securities – beginning of period	120.2
Purchases	26.0
Proceeds on sale	(3.6)
Net realized and unrealized gains on securities (net of foreign exchange losses on securities)	21.1
Securities – end of period	163.7

We continue to own a receivable of nominal value from a private equity fund, which is classified with our marketable securities for accounting purposes. We also own a passenger/car ferry operating on the St. Lawrence River under contract with the Government of Québec since 1973. The operating season began at the start of the second quarter. There were no material developments with these assets during the quarter.

Hospitality segment

In the first quarter of 2019, we acquired control of Holloway and currently own 51% of Holloway's outstanding shares. As a result, we are required to consolidate Holloway's results into our own results. Holloway's results of operations at 100% for the three and six months ended June 30, 2019 are below.

	Three months ended June 30, 2019	Six months ended June 30, 2019
	\$	\$
Hotel operations	20.9	36.5
Management services	0.2	0.4
Investment income	0.1	0.3
Total Revenue	21.2	37.2
Less:		
Hotel operating expenses	16.0	28.5
Selling costs on property and equipment sales	0.3	1.2
Loss on disposal of assets	0.5	0.5
Insurance proceeds	(0.9)	(0.9)
Share-based payment expense	—	0.4
Depreciation and amortization	3.4	6.1
Interest expense	2.2	3.9
Loss before income taxes	(0.3)	(2.5)

Holloway owns and operates hotels across Canada and provides hotel management services to third parties.

Hotels: As of June 30, 2019, Holloway's portfolio consisted of 25 hotels with 2,890 rooms of which 24 are operated by Holloway and one has been leased to a third party on a triple net basis. Of the 24 hotels operated by Holloway, 19 hotels are limited service and five hotels are full service properties. In addition, 22 are operated under internationally recognized hotel brands, one is operated under a regional hotel brand and one is unbranded.

Other Assets: As of June 30, 2019, Holloway owned three commercial office buildings in Houston, TX, one freestanding single tenant property leased to a nationally recognized restaurant chain and two land parcels that are being held for potential future development. Holloway also owns six subordinated loans receivable with an aggregate principal amount of \$6.9 million related to previous asset sales.

Management Services: As of June 30, 2019, the Company provided full or partial management services to 15 third party owned hotels. Additional information regarding this division is available at www.hollowaymanagementservices.ca.

OUTSTANDING SHARE DATA

At August 12, 2019, the Company had:

- An unlimited number of Common Shares authorized and 12,007,229 Common Shares outstanding; and
- An unlimited number of First and Second Preferred Shares authorized and none outstanding.
- 250,000 options to acquire Common Shares outstanding, all of which are vested and exercisable.

LIQUIDITY AND CAPITAL RESOURCES

During the six months ended June 30, 2019, the Company's net short term debt position (a non-IFRS measure representing short-term indebtedness net of cash and cash equivalents) increased \$51.8 million and is \$44.8 million as at June 30, 2019. This decrease in cash is a result of purchasing investments during the first two quarters combined with consolidating Holloway's short-term debt into our results.

Cash flow from operating activities

Cash provided by operating activities was \$4.3 million for the six months ended June 30, 2019 and \$8.0 million for the same period in 2018. The cash from operating activities is driven mainly by the dividends and interest received during the period as well as the ferry and hospitality operations.

At June 30, 2019, working capital excluding securities was negative \$56.1 million, compared to positive \$6.2 million at December 31, 2018. The Company has the ability to fund any working capital needs through its cash on hand and its existing credit facilities.

Cash flow from investing activities

Net cash of \$8.2 million was used in investing activities during the six months ended June 30, 2019, compared to \$1.9 million provided in the same period in 2018. Net cash used investing activities during the six months ended June 30, 2019 was a result of net purchases of investments of \$22.4 million, and the purchase of investment properties of \$17.5 million, offset by proceeds from the sale of hotel properties of \$28.6 million and the after-tax pension surplus distribution of \$1.2 million. Net cash provided by investing activities during the same period in 2018 was mainly a result of net sales of investments of \$1.5 million and an after-tax pension surplus distribution of \$1.2 million, offset by dry dock costs for our ferry of \$0.8 million.

Cash flow from financing activities

Net cash used in financing activities was \$1.5 million for the six months ended June 30, 2019, compared to \$22.2 million used during the same period in 2018. Net cash used in financing activities during the period was related to the repayment of long-term debt of \$10.7 million, the repurchase of Common Shares of \$3.2 million and the settlement of Holloway's share-based liability of \$1.1 million, offset by net proceeds on short-term borrowings of \$14.3 million. Net cash used in financing activities during the same period in 2018 was related to Common Share repurchases of \$22.0 million and long-term debt repayments of \$0.2 million.

Contractual obligations and capital resource requirements

The effects of commitments, events, risks and uncertainties on future performance are discussed in the sections relating to Contractual Obligations and Capital Resource Requirements. The table below summarizes Clarke's maximum contractual obligations by due date:

	Total	Less than 1 year	1 – 3 years	3 - 5 years	After 5 years
Contractual obligations	\$	\$	\$	\$	\$
Short-term indebtedness	46.3	46.3	—	—	—
Convertible debentures	50.9	—	50.9	—	—
Long-term debt	69.2	11.4	10.4	47.4	—
Lease obligation	0.7	0.1	0.2	0.2	0.2
	167.1	57.8	61.5	47.6	0.2

The convertible debentures balance of \$50.9 million is the face value repayment required upon maturity of Holloway's Series B Debentures. These debentures are convertible into common shares of Holloway at any time at the option of the holder, and therefore the actual cash required at maturity, if any, is dependent upon the number of debentures remaining unconverted. The debentures are also redeemable, at the option of the Company, in whole or in part, at any time after June 2, 2020. The redemption price is the principal amount plus accrued and unpaid interest. Holloway is required to provide at least 30 days' prior notice of the redemption.

Clarke expects to be able to fund all working capital requirements, contractual obligations, and capital expenditures from a combination of operating cash flows, existing credit facilities, and its current cash and cash equivalents position.

Clarke has several investment margin facilities with Canadian brokerage companies. The facilities permit draws of a portion of the market value of purchases of qualifying securities, depending upon the type of instrument, with certain market value restrictions. At June 30, 2019, \$30.0 million was available under these facilities and \$17.8 million was drawn on these facilities (December 31, 2018 – \$20,000 and nil, respectively). Declines in the market value of pledged securities may have an adverse effect on the amount of credit available under these facilities. Additionally, Holloway has access to two revolving

credit facilities. At June 30, 2019, \$61.6 million was available under these facilities and \$28.5 million was drawn on these facilities. In total, \$45.3 million was available on all facilities at the end of June 30, 2019 in addition to amounts drawn. (see note 11 to the unaudited interim consolidated financial statements for the three and six months ended June 30, 2019).

SUMMARY OF QUARTERLY RESULTS

Key financial information for the current and preceding seven quarters is as follows:

<i>Three months ended</i>	Sept. 2017	Dec. 2017	Mar. 2018	Jun. 2018	Sep. 2018	Dec. 2018	Mar. 2019	Jun. 2019
	\$	\$	\$	\$	\$	\$	\$	\$
Revenue and other income (loss)	2.4	3.1	3.5	2.8	8.8	(8.2)	55.7	20.5
Net income (loss)	—	(0.6)	2.1	0.9	6.2	(9.8)	36.5	0.6
Other comprehensive income (loss)	(0.6)	11.5	0.2	—	21.2	(2.4)	(0.8)	(3.5)
Comprehensive income (loss)	(0.6)	10.9	2.3	0.9	27.4	(12.2)	35.7	(2.9)
Basic EPS (in dollars)	—	(0.04)	0.16	0.07	0.49	(0.79)	3.06	(0.13)
Diluted EPS (in dollars)	—	(0.04)	0.16	0.07	0.49	(0.79)	3.04	(0.13)

As seen in the table above, our results can fluctuate significantly from quarter to quarter, in part as a result of certain accounting standards the Company follows, and as a result of fluctuations in the market prices of our securities portfolio. Under IFRS, realized and unrealized gains and losses on our publicly-traded securities are recorded in “revenue” on our consolidated statements of earnings. The Company does not believe that quarterly fluctuations in the stock prices of our investee companies necessarily reflect a change in the value of the underlying businesses in which we are invested. The value of the underlying businesses are often more stable than their stock prices reflect. Clarke views its investments on a longer-term basis as opposed to on a quarter-to-quarter basis. These fluctuations, however, often provide us with an opportunity to invest more capital in particular investments that we like or vice-versa. Our results have also fluctuated significantly over the last two quarters as a result of consolidating Holloway’s results with ours. Holloway’s business is seasonal in nature and the results fluctuate throughout the year. The revenues are generally highest in the third quarter due to increased leisure travel during the summer months. While certain expenses fluctuate according to occupancy levels, other expenses such as property taxes, insurance and interest are fixed and are incurred evenly throughout the year.

FINANCIAL INSTRUMENTS

In the normal course of operations, the Company uses the following financial and other instruments:

- To generate investment returns, the Company will invest in equity, debt and other securities. These instruments may have interest rate, market, credit and foreign exchange risk associated with them.
- To manage foreign exchange, interest rate and general market risk, the Company may enter into futures and forward exchange contracts. These instruments may have interest, market, credit and foreign exchange risk associated with them. Clarke hedges its foreign currency exposure on U.S. dollar denominated investments. Clarke anticipates continuing this policy for the foreseeable future.

As an investment company, Clarke has a significant number of financial instruments. Notes 1, 5, 8, 11, 17 and 18 to the consolidated financial statements for the year ended December 31, 2018 and the Company’s 2018 AIF, provide further information on classifications in the financial statements, and risks, pertaining to the use of financial instruments by the Company. Notes 2, 4, 5, 6, 11, 12, 13, 14 and 23 to the unaudited interim condensed consolidated financial statements for the three and six months ended June 30, 2019 also provide further information on financial instruments acquired and assumed in the business combination with Holloway.

SIGNIFICANT EQUITY INVESTMENTS

In accordance with National Instrument 51-102 of the Canadian Securities Administrators, the Company has determined that none of its investments qualify as significant equity investees. Holloway and Terravest were both previously disclosed as significant equity investees. Holloway no longer qualifies now that its financial results are consolidated with the Company, and Terravest no longer meets the quantitative thresholds for disclosure.

RELATED PARTY TRANSACTIONS

The Company was party to related party transactions during the six months ended June 30, 2019. All related party transactions were in the normal course of operations and occurred at fair value. For full details of the Company's related party transactions, please refer to Note 16 of our consolidated financial statements for the year ended December 31, 2018 and Note 15 of our interim condensed consolidated financial statements for the three and six months ended June 30, 2019.

DISCLOSURE CONTROLS AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

The implementation of Canadian Securities Administrators National Instrument 52-109 - Certification of Disclosure in Issuers' Annual and Interim Filings represents a continuous improvement process, which has prompted the Company to formalize existing processes and control measures and to introduce new ones. The objective of this instrument is to improve the quality, reliability, and transparency of information that is filed or submitted under securities regulation.

In accordance with this instrument, the Company has filed certificates signed by the President & Chief Executive Officer and the Chief Financial Officer that, among other things, report on the design of disclosure controls and procedures and the design of internal controls over financial reporting.

Management has designed disclosure controls and procedures to provide reasonable assurance that material information relating to the Company is made known to the President & Chief Executive Officer and the Chief Financial Officer, particularly during the period in which annual filings are being prepared. Management has also designed internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. The Company's President & Chief Executive Officer and the Chief Financial Officer have limited the scope of design of internal controls over financial reporting for Holloway. This scope limitation is in accordance with National Instrument 52-109 section 3.3 (1) (b), which allows for an issuer to limit scope for a business it acquired not more than 365 days prior to the end of the fiscal period. Fair value of assets and liabilities upon acquisition is as stated in note 4 to the interim condensed consolidated financial statements. Summary financial information for the company as consolidated in the interim financial statements of Clarke as at June 30, 2019, is as follows:

	\$
Total assets	298.3
Total liabilities	154.8
Revenue	37.2
Net income	1.4

There have been no changes in the Company's disclosure controls and procedures or internal controls over financial reporting during the six months ended June 30, 2019 that have materially affected, or are reasonably likely to materially affect, the effectiveness of the internal controls over financial reporting.

ENVIRONMENTAL MATTERS

The Company's businesses are exposed to the following environmental risks in conducting regular operations: (i) contamination of owned or leased property; and (ii) contamination of the environment relating to spills or leaks originating from the Company's ferry.

The Company's businesses regularly review their operations and facilities to identify any potential environmental contamination or liability. Limited internal reviews, which may include third party environmental assessments, have been conducted at all the Company's wholly-owned real estate within the past five years. These limited reviews identified no material remediation issues and potential risks and there have been no material events arising subsequently that would indicate additional obligations.

The Company believes it and its businesses comply in all material respects with all relevant environmental laws and regulations. The Company is not aware of any material uninsured pending or proceeding actions against it or any of its businesses relating to environmental issues.

CAUTIONARY STATEMENT REGARDING USE OF NON-IFRS ACCOUNTING MEASURES

This MD&A makes reference to the Company's book value per share and non-consolidated statement of financial position. Clarke uses book value per share as a measure of the performance of the Company as a whole. Book value per share is measured by dividing shareholders' equity attributable to equity holders of the Company at the date of the statement of financial position by the number of Common Shares outstanding at that date. Clarke presents a non-consolidated statement of financial position excluding the consolidation of Holloway as an appendix to this MD&A to enable the Company's shareholders to compare our current results to our prior results before the acquisition of control of Holloway. Clarke's method of determining these amounts may differ from other companies' methods and, accordingly, these amounts may not be comparable to measures used by other companies. These amounts are not performance measures as defined under IFRS and should not be considered either in isolation of, or as a substitute for, net earnings prepared in accordance with IFRS.

FORWARD-LOOKING STATEMENTS

This MD&A may contain or refer to certain forward-looking statements relating, but not limited, to the Company's expectations, intentions, plans and beliefs with respect to the Company. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "does not expect", "is expected", "budgets", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", "believes", or equivalents or variations of such words and phrases, or state that certain actions, events or results, "may", "could", "would", "should", "might" or "will" be taken, occur or be achieved. Forward-looking statements include, without limitation, those with respect to the future or expected performance of the Company's investee companies, the future price and value of securities held by the Company, changes in these securities holdings, the future price of oil and value of securities held in the Company's energy basket, changes to the Company's hedging practices, currency fluctuations and requirements for additional capital. Forward-looking statements rely on certain underlying assumptions that, if not realized, can result in such forward-looking statements not being achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause the actual results of the Company to be materially different from the historical results or from any future results expressed or implied by such forward-looking statements. Such risks and uncertainties include, among others, the Company's investment strategy, legal and regulatory risks, general market risk, potential lack of diversification in the Company's investments, interest rates, foreign currency fluctuations, the sale of Company investments, the fact that dividends from investee companies are not guaranteed, reliance on key executives, commodity market risk, risks associated with investment in derivative instruments and other factors. With respect to the Company's investment in a ferry operation, such risks and uncertainties include, among others, weather conditions, safety, claims and insurance, labour relations, and other factors.

Although the Company has attempted to identify important factors that could cause actions, events or results not to be as estimated or intended, there can be no assurance that forward-looking statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Other than as required by applicable Canadian securities laws, the Company does not update or revise any such forward-looking statements to reflect events or circumstances after the date of this document or to reflect the occurrence of unanticipated events. Accordingly, readers should not place undue reliance on forward-looking statements.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and six months ended June 30, 2019 and 2018

Unaudited (in thousands of Canadian dollars, except per share amounts)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of operations

Clarke Inc. (the “Company”) was incorporated on December 9, 1997 pursuant to the Canada Business Corporations Act. The head office of the Company is located at 145 Hobsons Lake Drive, Halifax, Nova Scotia. The Company is an investment holding company with investments in a diversified group of businesses, operating primarily in Canada. The Company continuously evaluates the acquisition, retention and disposition of its investments. Changes in the mix of investments should be expected. These interim condensed consolidated financial statements were approved by the Board of Directors on August 12, 2019.

Basis of presentation and statement of compliance

These interim condensed consolidated financial statements for the three and six months ended June 30, 2019, were prepared in accordance with IAS 34, *Interim Financial Reporting*. The same accounting policies and methods of computation were followed in the preparation of these interim condensed consolidated financial statements as were followed in the preparation of the annual consolidated financial statements for the year ended December 31, 2018, except as described in notes 2 and 3. These interim condensed consolidated financial statements for the three and six months ended June 30, 2019 should be read together with the annual consolidated financial statements for the year ended December 31, 2018.

Principles of consolidation

The interim condensed consolidated financial statements include the accounts of the Company and its subsidiaries. The significant subsidiaries of the Company are CKI Holdings Partnership, Quinpool Holdings Partnership, 8590435 Canada Inc., La Traversie Rivière-du-Loup – St-Siméon Limitée and Holloway Lodging Corporation (“Holloway”). Holloway is a subsidiary that is controlled by the Company with an ownership interest of 51.1% as at June 30, 2019. All intercompany transactions have been eliminated on consolidation. All subsidiaries have the same reporting year end as the Company, and all follow the same accounting policies.

2. NEW ESTIMATES AND JUDGMENTS AND ACCOUNTING POLICIES RESULTING FROM BUSINESS COMBINATION

Estimates and judgments

Business combinations

The purchase price allocation process requires management to use significant estimates and assumptions, including fair value estimates of assets acquired and liabilities assumed.

While the Company uses its best estimates and assumptions as part of the purchase price allocation process to accurately value the assets acquired and liabilities assumed at the business combination date, estimates and assumptions are inherently uncertain and subject to refinement. As a result, during the measurement period, which is the earlier of the date management receives the information it requires or one year from the business combination date, adjustments are recorded to the assets acquired and liabilities assumed.

The non-controlling interest (49% ownership interest in Holloway) recognized at the acquisition date was measured using the proportionate share of the fair value of net assets of the acquiree.

Clarke Inc.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and six months ended June 30, 2019 and 2018

Unaudited (in thousands of Canadian dollars, except per share amounts)

2. NEW ESTIMATES AND JUDGMENTS AND ACCOUNTING POLICIES RESULTING FROM BUSINESS COMBINATION (CONT'D)

Although the Company believes the assumptions and estimates made in the past have been reasonable and appropriate, they are based in part on historical experience and information obtained from the management of the acquired company and are inherently uncertain. Examples of critical estimates in valuing certain of the assets acquired and liabilities assumed include but are not limited to:

- future expected cash flows from the hotel properties and capitalization rates applied to future expected cash flows;
- uncertain tax positions and the fair value of both current and deferred income tax related assets and liabilities assumed in connection with a business combination which are initially estimated as of the acquisition date and are re-evaluated quarterly as management continues to collect information in order to determine their estimated value, with any adjustments to preliminary estimates recorded during the measurement period.

Changes in any of the assumptions or estimates used in determining the fair value of assets acquired and liabilities assumed could impact the initial amounts assigned to assets and liabilities in the purchase price allocation. Unanticipated events and circumstances may occur which may affect the accuracy or validity of such assumptions, estimates or actual results.

Accounting policies

Inventories

Inventories consist of linen, food, beverages and other supplies. Inventories are stated at the lower of cost and net realizable value. Cost is determined using the first in, first out method. Net realizable value is the estimated replacement cost. If the carrying value exceeds the net realizable value, a write-down is recognized in the interim consolidated statements of earnings.

Property and equipment

The accounting policy has remained the same for the Company's existing property and equipment classes of ferry and vessel dry dock costs and furniture, fixtures and equipment. Depreciation for the property and equipment acquired in the business combination is provided on a straight-line basis from the date assets are ready to be put into service at rates which will amortize the carrying cost less residual value of the property and equipment over their estimated useful lives. Estimated useful lives and residual values are reviewed at least annually. The estimated useful lives of property and equipment acquired in the business combination are as follows:

Property and equipment class	Useful life
Land lease	Term of the lease
Buildings and components	15 – 60 years
Furniture, fixtures and equipment	2 – 7 years
Paving	10 years
Landscaping	5 years
Signage	10 years
Computer equipment and websites	3 years

Land is not amortized. Renovations are amortized once they are put into use.

Clarke Inc.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and six months ended June 30, 2019 and 2018

Unaudited (in thousands of Canadian dollars, except per share amounts)

2. NEW ESTIMATES AND JUDGMENTS AND ACCOUNTING POLICIES RESULTING FROM BUSINESS COMBINATION (CONT'D)

As a result of the business combination on January 24, 2019, the Company changed its accounting policy for certain asset classes from the cost model to the revaluation model, in accordance with *IAS 16, Property, Plant and Equipment*. The change in policy is accounted for prospectively as required by *IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors*.

The policy choice is by asset class, and as such, the Company has elected to change its land and building and components asset classes to the revaluation model. All other asset classes will continue to be accounted for under the cost model. Under the revaluation model, land and building components are carried at fair value at the date of revaluation and subsequently depreciated until the next revaluation. The land and buildings acquired in the business combination were recorded at fair value through the purchase price allocation (note 4). The Company did not own any land and building prior to the business combination, therefore, no additional revaluation was required.

The Company has elected the net method for adjustment upon revaluation. The net method eliminates accumulated depreciation against the carrying amount of the asset and then revalues the net carrying amount. Depreciation on the carrying amount is charged to profit or loss.

Land and building components are revalued on a sufficiently regular basis using third party offers, internal models or external appraisals, when available, so that the carrying value of an asset does not differ materially from its fair value at each reporting date. The Company has established a methodology to evaluate when circumstances indicate that the carrying amount may differ materially from its fair value, which includes significant changes in operating performance, economic activity, regional development opportunities and new competition in the markets in which each property operates.

Increases in fair value are recorded in other comprehensive income and accumulated in revaluation surplus, except to the extent that they reverse a revaluation decrease previously charged to profit or loss, in which case the reversal is recorded in profit or loss. Decreases in fair value are charged against other comprehensive income and the revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset, and thereafter are recorded in profit or loss.

The Company uses a capitalized income internal model and considers hotel sales in comparable markets. The fair value models are prepared internally. Capitalization rates used are obtained from an independent third party. In the Company's internal models, each hotel's recent historical operating income is normalized for any unusual and non-recurring events and reduced by a capital expenditure reserve of 4% of revenues. A 4% capital expenditure reserve may not reflect actual capital expenditures for a particular hotel. A capitalization rate specific to the market in which each hotel operates is applied to the operating income. In situations where a capitalized income value results in a fair value which differs significantly from the price per room metrics in recent market transactions, the Company uses comparable hotel sales prices, professional judgment and management expertise to determine the fair value. The fair value may not reflect the realizable value in the event a particular hotel is sold by the Company.

These are level 3 fair value measurements under the fair value hierarchy. A key factor of estimation uncertainty used in the internal models was the capitalization rate, which ranged from 9.0% – 11.0%.

If the capitalization rate had been 0.25% higher/lower for the purpose of the purchase price allocation, the estimated fair value under the capitalized income approach would result in a change of \$4,500 to property and equipment. If the value of the comparable hotel sales had been 5% higher/lower in the purchase price allocation, the estimated fair value would result in a change of \$2,800 to property and equipment.

Clarke Inc.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and six months ended June 30, 2019 and 2018

Unaudited (in thousands of Canadian dollars, except per share amounts)

2. NEW ESTIMATES AND JUDGMENTS AND ACCOUNTING POLICIES RESULTING FROM BUSINESS COMBINATION (CONT'D)

Investment properties

Investment properties are held either to earn rental income, for capital appreciation (including future re-development) or both, but not for sale in the ordinary course of business. In accordance with *IAS 40, Investment Property*, the Company changed its accounting policy from the cost model to the fair value model. Investment properties are initially measured at cost, including transaction costs, and subsequently measured at fair value for each reporting date. The difference between the fair value at the reporting date and the carrying value is recognized in profit or loss. Under the fair value model, investment properties are not depreciated. The investment properties acquired in the business combination were recorded at fair value through the purchase price allocation (note 4). The fair value of the Company's previous investment properties prior to the business combination did not differ materially from their carrying values; therefore no revaluation adjustment was required.

Share-based compensation

A subsidiary of the Company has a share option plan for certain employees and directors. The subsidiary accounts for share options using the fair value method. The subsidiary has a history of settling share options for cash, and as such, they are treated as a liability and are remeasured at each financial reporting date. The accounting policy has remained the same for the Company's existing share-based compensation plan.

Convertible debentures

The convertible debentures were assumed in the business combination and were recorded at their fair value through the purchase price allocation (note 4). Over the remaining term of the debentures, the liability will be subsequently measured at amortized cost using the effective interest rate method, with interest income included in investment and other income.

Revenue recognition

The accounting policy has remained the same for the Company's existing revenue streams. The following is the incremental revenue recognition policy following the business combination.

Hotel revenue

Hotel revenue is generated primarily from room occupancy, food and beverage services, rental and ancillary services. The Company recognizes revenue when the services are provided to the customer and payment of the transaction price is due, as there are no further performance obligations to be satisfied at that point.

Management services revenue

Management services revenue is generated from providing hotel management services to third parties. The Company recognizes revenue when the services are rendered to the customer, typically on a monthly basis and payment of the transaction price is due. The total transaction price of certain contracts includes variable consideration based on certain financial measures being achieved.

The Company determines the total transaction price, including an estimate of any variable consideration, at contract inception and reassesses this estimate at each reporting date using the most likely amount method.

Clarke Inc.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and six months ended June 30, 2019 and 2018

Unaudited (in thousands of Canadian dollars, except per share amounts)

2. NEW ESTIMATES AND JUDGMENTS AND ACCOUNTING POLICIES RESULTING FROM BUSINESS COMBINATION (CONT'D)

Loyalty programs

Loyalty programs administered by third-party hotel brands enable guests to earn credit for points redeemable for free accommodations or other benefits at a later date. The Company effectively acts as an agent for these third party programs. Room revenue is shown net of the cost of these loyalty programs.

Operating segments

The Company now operates in two reportable business segments. The Investment segment includes investments in a diversified group of businesses, operating primarily in Canada. The new Hospitality segment includes the ownership and operation of hotels and the provision of hotel management services to third parties by the new subsidiary, Holloway.

Foreign currency translation

The Company's interim condensed consolidated financial statements are presented in Canadian dollars, which is also the functional currency of the parent company. Each of the Company's subsidiaries determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

The assets and liabilities of foreign operations are translated into Canadian dollars at the rate of exchange prevailing at the reporting date and their statements of earnings are translated at monthly average exchange rates. The exchange differences arising on the translation, tax charges and credits attributable to exchange differences are recognized in other comprehensive income. On disposal of a foreign operation, the component of accumulated other comprehensive income relating to that particular foreign operation is recognized in the consolidated statements of earnings.

3. ADOPTION OF NEW STANDARD

The following standard became applicable January 1, 2019 and the Company changed its accounting policy as a result of adopting the standard. No retrospective adjustment was necessary as a result of the new standard.

IFRS 16 Leases

IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract, i.e. the customer ('lessee') and the supplier ('lessor'). IFRS 16 eliminates the classification of leases as either operating leases or finance leases as is required by IAS 17 and, instead, introduces a single lessee accounting model. Applying that model, a lessee is required to recognize: 1) assets and liabilities for all leases with a term of more than twelve months, unless the underlying asset is of low value and 2) depreciation of lease assets separately from interest on lease liabilities on the statements of earnings. The Company assessed this new standard and there was no impact to the interim condensed consolidated financial statements from this adoption on January 1, 2019. As a result of the business combination on January 24, 2019, the Company acquired a right-of-use asset and assumed a corresponding lease obligation related to the subsidiary's head office space (note 4). The fair value of the asset on acquisition was \$731 and is included in property and equipment. The fair value of the lease obligation assumed was \$734. The current portion of the lease obligation is presented in accounts payable and accrued liabilities.

Clarke Inc.**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

Three and six months ended June 30, 2019 and 2018

*Unaudited (in thousands of Canadian dollars, except per share amounts)***4. BUSINESS COMBINATION**

On January 24, 2019, Holloway completed a substantial issuer bid (“SIB”) by repurchasing 1,553,755 of its common shares. As a result, the Company owned 51.0% of the remaining common shares and acquired control of Holloway. Holloway is a hospitality company that owns and operates hotels and provides hotel management services to third parties. The transaction constitutes a business combination in accordance with IFRS 3. The Company acquired control without transferring consideration; therefore, total consideration used for the purpose of the purchase price allocation was \$50,500 which was the fair value of the Clarke’s investment in Holloway on the acquisition of control date using the last bid price. The cumulative unrealized gain of \$14,233 was reversed and recognized as a realized gain. The Company previously recognized Holloway at fair value through profit or loss, therefore, the pre-acquisition net gain to the carrying value of the investment was nominal. As a result of this transaction, this business is now accounted for as a non-wholly owned subsidiary of the Company and the results of the acquired business have been consolidated with those of the Company from January 24, 2019, with the inclusion of a 49.0% non-controlling interest. Below is the purchase price allocation:

	\$
Cash	906
Receivables	2,275
Inventories	440
Prepaid expenses and deposits	981
Property and equipment	286,766
Investment properties	2,525
Loans receivable	8,958
Other assets	533
Deferred income tax assets	7,685
Short-term indebtedness	(32,049)
Accounts payable and accrued liabilities	(7,182)
Accrued interest on convertible debentures	(714)
Share-based payment liability	(659)
Convertible debentures	(50,917)
Mortgages payable	(76,446)
Lease obligation	(734)
Non-controlling interest	(69,760)
Net assets acquired, at fair value	72,608

This acquisition of control resulted in a gain on a bargain purchase in the subsidiary of \$22,108, which is included in the interim consolidated statement of earnings for the six months ended June 30, 2019. The bargain purchase was reduced by \$281 from the amount disclosed in the preliminary purchase price allocation for the three months ended March 31, 2019. The reduction was a result of new information obtained during the three months ended June 30, 2019 related to the fair values of certain hotels. The other changes include a decrease to property and equipment of \$740, an increase to the deferred income tax asset of \$189, and a decrease to non-controlling interest of \$270. The purchase price allocation is now considered final by the Company.

Included in the interim consolidated statement of earnings for the three and six months ended June 30, 2019 is revenue and other income of \$21,289 and \$37,353, respectively, and net income of \$3,289 and \$2,724, respectively, attributable to the additional business generated by Holloway. Had the acquisition occurred on January 1, 2019, revenue of the Company for the three and six months ended June 30, 2019 would have been \$20,241 and \$80,449, respectively, and the net income of the Company for the three and six months ended June 30, 2019 would have been \$282 and \$33,559, respectively. These pro-forma numbers represent an approximate measure of the performance of the combined group and provide a reference point for comparison in future periods.

8. PROPERTY AND EQUIPMENT (CONT'D)

The Super 8[®] in Yellowknife, NT and the Travelodge[®] in Sydney, NS were damaged due to a release of water into the hotels. These events resulted in insurance claims under the Company's insurance policy. The Company has incurred \$900 on capital improvements to the hotels and has recorded \$107 and \$219 in business interruption insurance (included in investment and other income) in the three and six months ended June 30, 2019, respectively and \$949 in property and contents insurance, net of clean-up and other costs in the three months and six months ended June 30, 2019. The Company recorded a loss on disposal of \$400 on the write-off of the building components that were damaged.

Disposals of property and equipment

The following six properties were sold by Holloway during the six months ended June 30, 2019 subsequent to the acquisition of control date.

Days Inn[®], Moncton, NB

On March 6, 2019, the Company sold the Days Inn hotel in Moncton, NB, for gross proceeds of \$9,000. The Company received net cash proceeds of \$4,056 after selling costs, the repayment of a \$3,624 mortgage secured by the property and the provision of a \$1,000 vendor take-back second mortgage.

Travelodge[®], Moncton, NB

On March 6, 2019, the Company sold the Travelodge hotel in Moncton, NB, for gross proceeds of \$5,000. The Company received net cash proceeds of \$1,790 after selling costs and the repayment of a \$3,028 mortgage secured by the property.

Single tenant property, Timmins, ON

On March 18, 2019, the Company sold its single tenant property located in Timmins, ON, for gross proceeds of \$1,725. The Company received net cash proceeds of \$1,648 after selling costs.

Super 8[®], Windsor, NS

On March 28, 2019, the Company sold the Super 8 hotel in Windsor, NS, for gross proceeds of \$5,300. The Company received net cash proceeds of \$2,452 after selling costs, the repayment of a \$2,157 mortgage secured by the property and the provision of a \$500 vendor take-back second mortgage.

Super 8[®], Timmins, ON

On June 18, 2019, the Company sold the Super 8 hotel in Timmins, ON, for gross proceeds of \$6,500. The Company received net cash proceeds of \$5,279 after selling costs and the provision of a \$1,000 vendor take-back second mortgage.

Travelodge[®], Timmins, ON

On June 18, 2019, the Company sold the Travelodge hotel in Timmins, ON, for gross proceeds of \$4,900. The Company received net cash proceeds of \$4,734 after selling costs.

On January 24, 2019, the Company acquired through a business combination (note 4) a hotel which is leased, on a triple net basis, to a third party under a lease agreement. The lease expires on January 15, 2021 and includes an option for the lessee to acquire the hotel at any time during the lease period.

On January 30, 2019, the Company purchased a non-performing US dollar loan receivable, secured by an office building, for US\$4,800. On March 5, 2019, the Company foreclosed on the office building. On May 24, 2019, the Company purchased two office buildings in Houston, TX, for US\$8,275. The functional currency of these foreign operations is the US dollar.

10. INCOME TAXES

The recovery of income taxes for the three and six months ended June 30 consists of:

	Three months ended	Three months ended	Six months ended	Six months ended

11. SHORT-TERM INDEBTEDNESS

The Company maintains several investment accounts with various brokers. The Company has access to an investment margin account for purposes of financing eligible marketable securities. Any Canadian dollar financing used under this arrangement bears interest at the prime rate of a Canadian chartered bank and is collateralized by the marketable securities purchased. The interest rate was equal to 3.95% at June 30, 2019 (December 31, 2018 – 3.95%). Any US dollar financing used under this arrangement bears interest at the US base rate less 1.00% and is collateralized by the marketable securities purchased. The interest rate was equal to 5.50% at June 30, 2019 (December 31, 2018 – 5.50%). The Company had drawn nil on the Canadian dollar and US dollar facilities, respectively, at June 30, 2019 and December 31, 2018.

The Company also has a demand revolving loan of \$40,000 secured by marketable securities. The interest rate for the demand revolving loan was 4.70% at June 30, 2019 (December 31, 2018 – 4.70%). The Company had drawn \$17,823 on the demand revolving loan at June 30, 2019 and nil at December 31, 2018. The short-term loan facility is subject to restrictive covenants and security arrangements. There are restrictive covenants for the Company that are governed by a minimum current ratio (1.20:1.00) and maximum adjusted tangible net worth ratio (1.25:1.00). For the three and six months ended June 30, 2019, all of the restrictive covenants were met for the Company's primary short-term facilities. The Company has unrestricted access to its credit facilities subject to pledging sufficient securities as collateral. Any decline in the fair value of securities within the portfolio may limit the Company's access to the full amount of the short-term facilities.

Clarke Inc.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and six months ended June 30, 2019 and 2018

Unaudited (in thousands of Canadian dollars, except per share amounts)

11. SHORT-TERM INDEBTEDNESS (CONT'D)

On January 24, 2019, the Company assumed credit facilities with two Canadian chartered banks in a business combination (note 4). The first credit facility has a maximum borrowing capacity at June 30, 2019 of \$40,650. This credit facility's availability is determined by a borrowing base calculation and bears interest at prime plus 1.25% or based on a spread to banker's acceptance. At June 30, 2019, the Company had drawn \$13,477 on this facility. This facility is secured by a registered charge on seven hotel properties, is subject to an annual review and has no set expiry. The second credit facility has a maximum borrowing capacity of \$21,000. This credit facility bears interest at prime plus 1.50%. At June 30, 2019, the Company had drawn \$15,000 on this facility. This facility is secured by a registered charge on nine hotel properties, is subject to an annual review and matures in May 2022. Each individual draw must be repaid within one year.

12. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	June 30, 2019	December 31, 2018
	\$	\$
Trade payables	2,628	121
Accrued liabilities	7,739	602
	10,367	723

13. CONVERTIBLE DEBENTURES

On January 24, 2019, the Company assumed convertible debentures in a business combination with a fair value of \$50,917 (note 4). On April 26, 2019, at a meeting of the holders of the Series B Debentures (the "Debentures") of Holloway (HLC.DB), the Company obtained approval to amend the Debentures as follows: (1) extending the maturity date by three years to February 28, 2023; (2) amending the conversion price to \$12.50 per common share being a conversion rate of 80 common shares per \$1,000 principal amount of the Debentures (amount not in thousands); and (3) amending the redemption provision to, among other things, prohibit the subsidiary from redeeming the Debentures until June 1, 2020, except in connection with a change in control of Holloway resulting in the acquisition of 100% of the voting or equity interests in the subsidiary and except, for the 60 days following the effective date of the debenture amendments, to allow the subsidiary to redeem up to 10% of the aggregate principal amount, being approximately \$5,087 aggregate principal amount, of the Debentures at a price equal to the principal amount thereof, plus accrued and unpaid interest. The revised present value of the modified contractual cash flows as a result of extending the maturity date had no impact on the carrying value.

The Debentures bear interest at 6.25% payable semi-annually on April 30th and October 31st and have a face value of \$50,866 at June 30, 2019. The Company has the option to repay the principal amount of the debentures, in whole or in part, at maturity or redeem the debentures in whole or in part, not earlier than June 1, 2020 or prior to maturity, in cash or by issuing the number of equivalent common shares of the subsidiary ("Redemption Option"). The number of common shares to be issued is calculated by dividing the aggregate principal amount by 95% of the current market price of Holloway's common shares (calculated in accordance with the indenture).

The change in the convertible debenture balance is summarized as follows:

	June 30, 2019
	\$
Fair value assumed on business combination	50,917
Amortization of fair value increment	(26)
Ending balance	50,891

Amortization of fair value increment	(129)	—
Total long-term debt – ending balance	69,173	3,444

15. RELATED PARTY DISCLOSURES

During the six months ended June 30, 2019, the Company sold marketable securities through the facilities of the Hong Kong Stock Exchange to the Clarke Inc. Master Trust, which holds the units of the pension plans administered by the Company. The sale was made for investment purposes and the Company received net proceeds of \$3,613.

The Company was a party to rental agreements, information technology and tax services agreements with companies owned or partially owned by the Executive Chairman and his immediate family member. Included in ‘*General and administrative expenses*’ for the three and six months ended June 30, 2019, is rental, IT and tax services expenses of \$125 and \$208, respectively (2018 – \$36 and \$74, respectively) under the agreements.

Clarke Inc.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and six months ended June 30, 2019 and 2018

Unaudited (in thousands of Canadian dollars, except per share amounts)

16. SHARE-BASED LIABILITY

On January 24, 2019, the Company assumed a share-based liability in a business combination (note 4). As a result of the acquisition of control, the unvested common share options in the subsidiary immediately vested and all options not exercised 90 days following the change of control would be terminated. At the acquisition date, the fair value of the options was \$659 and was measured using the Black-Scholes option pricing model. The majority of the options were exercised in cash prior to March 31, 2019. The remaining options were exercised for common shares of the subsidiary during the three months ended June 30, 2019.

The following table summarizes the changes in the share-based liability for the six months ended June 30, 2019:

	June 30, 2019
	\$
Fair value assumed on business combination	659
Change in fair value of share-based liability	445
Options exercised for cash	(1,079)
Options exercised for shares of the subsidiary	(25)
Ending balance	—

17. CONTINGENCIES AND COMMITMENTS

As a result of the business combination during the six months ended June 30, 2019, the Company has the following new contingencies and commitments through its subsidiary:

Contingencies

In the course of the Company's hospitality services, it is involved in administrative proceedings, litigations and claims. In September 2015, the subsidiary was served with a personal injury claim in the Alberta Court of Queen's Bench seeking over \$10,000 in damages. The Company believes the claims are without merit, there are valid defences to any actions or the outcomes will not have a material impact on the consolidated statements of financial position or results of operations. The Company intends to fully defend its interests and take all other action available to it. The outcome of the claims is subject to future court proceedings, and it is not practicable to determine an estimate of the possible financial effect, if any, at this time with sufficient reliability. Accordingly, no amounts have been recorded related to these claims.

Commitments

Franchise agreements

Under the terms of the hotel franchise agreements expiring at various dates through the year 2036, franchise fees (including royalty fees, reservation and marketing assessments) are due to franchise companies on 23 of the 25 hotels owned by the Company at June 30, 2019. The franchise fees paid to franchisors for all but two hotels are calculated based on a percentage of revenue, with two hotels' fees being based on fixed annual charges.

Outstanding common shares, end of period	12,040,429	39,030	12,285,888	39,826

Earnings per share

The following table reconciles the basic and diluted per share computations from continuing operations attributable to equity holders of the Company:

	Three months ended June 30, 2019			Three months ended June 30, 2018		
	Loss \$	Weighted average shares (in thousands) #	Per share amount \$	Earnings \$	Weighted average shares (in thousands) #	Per share amount \$
Basic earnings (loss) per share	(1,592)	12,047	(0.13)	919	12,589	0.07
Common shares issued on assumed exercising of stock options	—	—	—	—	74	—
Diluted earnings (loss) per share	(1,592)	12,047	(0.13)	919	12,663	0.07

	Six months ended June 30, 2019			Six months ended June 30, 2018		
	Earnings \$	Weighted average shares (in thousands) #	Per share amount \$	Earnings \$	Weighted average shares (in thousands) #	Per share amount \$
Basic earnings per share	35,508	12,128	2.93	3,046	12,864	0.24
Common shares issued on assumed exercising of stock options	—	92	—	—	58	—
Diluted earnings per share	35,508	12,220	2.91	3,046	12,922	0.24

All potentially dilutive securities issued relate to stock options for the three and six months ended June 30, 2019 and 2018. The stock options were dilutive for the six months ended June 30, 2019 and three and six months ended June 30, 2018 and anti-dilutive for the three months ended June 30, 2019.

NCIB

In the six months ended June 30, 2019, the Company purchased for cancellation 245,459 (2018 – 229,100) common shares under a NCIB at a cost of \$3,195 (2018 – \$2,578). The purchase price in excess of the historical book value of the shares in the amount of \$2,399 (2018 – \$1,836) has been charged to retained earnings and \$796 (2018 – \$742) has been charged to share capital.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and six months ended June 30, 2019 and 2018

Unaudited (in thousands of Canadian dollars, except per share amounts)

23. FINANCIAL INSTRUMENTS

The Company's financial instruments at June 30, 2019 and December 31, 2018 included cash and cash equivalents, marketable securities, receivables, loans receivable, short-term indebtedness, accounts payable and accrued liabilities, convertible debentures (including accrued interest), long-term debt, and a lease obligation. All of the Company's financial instruments are classified at amortized cost, with the exception of marketable securities, which are classified at fair value through profit or loss.

The carrying value of cash and cash equivalents, receivables, loans receivable, short-term indebtedness, and accounts payable and accrued liabilities approximates their fair value due to the short-term maturity of these instruments. The difference between the carrying values and the fair values of the Company's convertible debentures, long-term debt and lease obligation is not material given that the liabilities were assumed at fair value through the purchase price allocation during the prior quarter. For the long-term debt existing prior to the business combination, the difference between the carrying value and the fair value is not material given that the instrument is subject to a floating rate of interest that adjusts with changes to the bank rates.

The methods and assumptions used in estimating the fair value of mortgages payable, convertible debentures and the share-based liability are as follows:

Mortgages payable

The fair value is determined using internal valuation techniques which incorporate the discounted future cash flows using discount rates that reflect current market conditions for debt instruments with similar interest rates, terms and risk. The fair values do not necessarily represent the amounts the Company might pay in actual market transactions.

Convertible debentures

The convertible debentures have two components of value: the conventional debentures and the Redemption Option (note 13). The fair value of the convertible debentures is based on the quoted market price for the debentures of the subsidiary. The Redemption Option has been accounted for as an embedded derivative that is required to be bifurcated from the underlying debentures, valued using an option pricing model and accounted for as a financial asset with the amount of any Redemption Option being added to the carrying value of the convertible debentures. Any change in the fair value of the Redemption Option is recorded in interest and accretion on debt in the consolidated statements of earnings.

Share-based payment liability

The fair value is determined using the quoted market price for the shares of the subsidiary, the Black-Scholes option pricing model and internal valuation techniques which incorporate the share price in calculating volatility. Volatility is calculated using the subsidiary's specific volatility base on the historical share price. The share-based payment liability was nil as at June 30, 2019.

The Company uses the following hierarchy in attempting to maximize the use of observable inputs and minimize the use of unobservable inputs, primarily using market prices in active markets:

Level 1 – Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing on an ongoing basis.

Clarke Inc.**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

Three and six months ended June 30, 2019 and 2018

*Unaudited (in thousands of Canadian dollars, except per share amounts)***23. FINANCIAL INSTRUMENTS (CONT'D)**

Level 2 – Observable inputs other than level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable that can be corroborated by observable market data for substantially the full term of the asset or liability.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following details the fair value hierarchy classification for financial instruments carried at fair value on the interim consolidated statements of financial position:

Description	Fair Value at June 30, 2019			
	Total	Level 1 Quoted prices in active markets for identical assets	Level 2 Significant other observable inputs	Level 3 Significant unobservable inputs
Marketable securities	105,223	105,223	—	—
Redemption Option-level 2	—	—	—	—
	105,223	105,223	—	—

Risks associated with financial assets and liabilities

The Company is exposed to various financial risks arising from its financial assets and liabilities. These include market risk relating to equity prices, interest rates and foreign exchange rates, liquidity risk and credit risk. To manage these risks, the Company performs detailed risk assessment procedures at the individual investment level, under the framework of a global risk management philosophy.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. For the Company, market risk is comprised of equity price risk, interest rate risk and foreign exchange risk.

Equity price risk

Equity price risk refers to the risk that the fair value of marketable securities will vary as a result of changes in market prices of the investments. The carrying values of investments subject to equity price risk are based on quoted market prices as of the interim consolidated statements of financial position dates. Market prices are subject to fluctuation and, consequently, the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuations in the market price of a security may have no relation to the intrinsic value of the security. Furthermore, amounts realized in the sale of a particular security may be affected by the quantity of the security being sold.

The table below shows the impact to the Company on consolidated net income of a 10% increase or decrease in market prices on securities carried at market value in the interim consolidated statements of financial position of the Company. The selected change does not reflect what could be considered the best or worst case scenarios.

Clarke Inc.**NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

Three and six months ended June 30, 2019 and 2018

*Unaudited (in thousands of Canadian dollars, except per share amounts)***23. FINANCIAL INSTRUMENTS (CONT'D)**

Fair value	Price change	Estimated fair value after price change	After-tax impact on net income
\$	%	\$	\$
105,223	10% increase	115,745	9,020
105,223	10% decrease	94,701	(9,020)

The Company manages its equity price risk by purchasing and holding securities of companies that it believes trade at a discount to their intrinsic values.

Interest rate risk

The Company is exposed to interest rate risk on its lending and borrowing activities. It manages its exposure to interest rate risk by using fixed rate debt or debt with a fixed-rate option, so cash flows are not impacted significantly by a change in interest rates. The weighted average interest rate on its mortgages payable is 4.93% with a weighted average maturity of 3.2 years.

The Company has one term loan, one mortgage and a revolving credit facility at floating rates. At June 30, 2019, the after-tax net income effect of a 1% change in interest rates would have been \$584 on floating rate debt of \$81,759.

Foreign exchange risk

Foreign exchange risk refers to the risk that values of financial assets and liabilities denominated in foreign currencies in the interim consolidated statements of financial position of the Company will vary as a result of changes in underlying foreign exchange rates.

The Company has investments throughout North America, and as such is exposed to movements in the US/Canadian exchange rate. At June 30, 2019, the effect of a 20% change in the US/Canadian exchange rate on after-tax consolidated net income would have been \$523 based on a US net asset balance of US\$2,799.

The Company manages its exposure to foreign exchange risk by entering into foreign exchange contracts. At June 30, 2019 and 2018, the Company did not have any forward contracts outstanding to sell US dollars.

Credit risk

Credit risk refers to the risk that a counterparty will fail to fulfill its obligations under a contract and, as a result, will cause the Company to suffer a loss. This risk is mitigated through credit policies that limit transactions according to counterparties' credit quality. The Company assesses the credit quality of all counterparties, taking into account their financial position, past experience and other factors. The maximum exposure to credit risk associated with financial assets is the total carrying value of the receivables and loans receivable. The Company does not believe it is subject to any significant concentration of credit risk.

The amount of receivables presented on the interim consolidated statements of financial position of \$6,037 is net of an allowance for doubtful accounts. Listings of trade receivables in the Hospitality segment are reviewed by and discussed with hotel operations personnel on a monthly basis. The Company also has six loans receivable in the amount of \$6,920 obtained through the respective sales of previously owned assets. There is no impairment provision recorded on the loans receivable, as they are expected to be collected in full.

Clarke Inc.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and six months ended June 30, 2019 and 2018

Unaudited (in thousands of Canadian dollars, except per share amounts)

23. FINANCIAL INSTRUMENTS (CONT'D)

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations. The Company believes it has access to sufficient capital through cash on hand, operating cash flows and existing borrowing facilities to meet these obligations. The Company monitors and forecasts its cash balances and cash flows generated from operations to meet its required obligations. Cash flow forecasting for the Hospitality segment is performed at the hotel level and aggregated in head office. At June 30, 2019, the Company had cash of \$1,539 and available unused facilities totalling \$45,350.

The following table shows the timing of expected payments of current liabilities and long-term debt:

	Due within 1 year	1 to 3 years	3 to 5 years	After 5 years
	\$	\$	\$	\$
Short-term indebtedness	46,300	—	—	—
Accounts payable and accrued liabilities	10,367	—	—	—
Convertible debentures interest	3,179	9,537	—	—
Convertible debentures	—	50,866	—	—
Long-term debt	11,357	7,125	47,448	2,900
Interest on long-term debt	1,622	5,388	1,533	295
	72,825	72,916	48,981	3,195

24. SEGMENTED INFORMATION

The Company now operates in two reportable business segments following the business combination during the six months ended June 30, 2019. The existing Investment segment represents the Company's marketable securities portfolio, consisting of publicly traded equity securities at fair value through profit or loss, and the Company's ferry business. The new Hospitality segment consists of the Company's ownership and operation of hotels and the provision of hotel management services to third parties. The Other category is not a segment and is disclosed for reconciliation purposes. The Other category consists of owned real estate, our treasury and executive functions, and the results of our pension plans. Revenue from external customers earned in the Other category pertains to management service fees and rental income.

Transactions between the segments are recorded at fair value, which is the amount of consideration established and agreed to by management of the segments. Reconciling items represent inter-segment eliminations for services provided between segments.

The Company operates predominantly in Canada, with the exception of three investment properties in the United States (note 9). For the three and six months ended June 30, 2019, hotel revenue and provision of services was all generated by continuing operations in Canada.

25. SUBSEQUENT EVENTS

On July 25, 2019, the Company sold the Travelodge[®] hotel in Sydney, NS for gross proceeds of \$5,050. After repayment of the existing mortgage and closing costs, the net cash proceeds were \$1,820. On August 6, 2019, the Company sold the Super 8[®] hotel in Truro, NS for gross proceeds of \$3,000. After repayment of the existing mortgage and closing costs, the net cash proceeds were \$1,070. Both hotel properties were revalued during the six months ended June 30, 2019 to reflect their fair values.

Clarke Inc.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Three and six months ended June 30, 2019 and 2018

Unaudited (in thousands of Canadian dollars, except per share amounts)

25. SUBSEQUENT EVENTS (CONT'D)

On August 8, 2019, the Company entered into a definitive agreement (the “Arrangement Agreement”) pursuant to which the Company agreed to acquire all outstanding common shares of Holloway by way of a statutory plan of arrangement under the Ontario Business Corporations Act. Under the terms of the Arrangement Agreement, Holloway shareholders, other than the Company, will receive 0.65 common shares of Clarke Inc. for each Holloway common share they own. The acquisition is valued at approximately \$132,000 on an equity value basis as of the announcement date on August 9, 2019. As at August 9, 2019, the Company owned 7,952,715 common shares of Holloway, representing approximately 51% of the outstanding Holloway common shares.

The transaction, which is subject to approval by both Holloway and Clarke shareholders, and other customary conditions and approvals, is expected to close during the third quarter of 2019. Upon closing, Holloway will become a wholly-owned subsidiary of the Company.
